

HOANG PHAN

Senior Product Owner / Product Manager

(+84) 32 6562 797
hoangpm.work@gmail.com
hoangphan.blog
linkedin.com/in/hoangphan96

- 8+ years across Business Analyst, Product Owner and Product Manager roles, including leading multi-product, cross-functional teams.
- Led digital banking and payments delivery across many banks at VNPAY in a multi-stakeholder environment.
- Built and shipped a public-facing data product (Seitrace, official Sei blockchain explorer) and AI products using LLMs - Gemini, GPT, Claude (TestGenAI, EnrichEnglish.App).
- Cross-role across DEV, QC, BA, PO, and PM - comfortable connecting business, data, and delivery without intermediaries.

WORK EXPERIENCE

Co-founder / Product Manager

Jul 2022 - Apr 2026

Cavies Labs (Full time Remote)

- Co-founded a product studio and led a 12+ person product, design, and engineering team across multiple parallel initiatives.
- Owned Seitrace - official Sei blockchain explorer (Jan 2024 - Mar 2026), the first explorer to support both parallelized EVM and Native Sei (Wasm); indexed 5.6B+ transactions at 99.98% uptime.
- Defined data product roadmap with two downstream consumer segments: end-user explorer and public API for dApps/partners/analytics. Received \$50K/year Sei Foundation grant to run the public API free for the ecosystem, with paid tiers for high-volume partners.
- Operated the indexing pipeline for Sei (~400ms block time), balancing display latency, data accuracy, and infrastructure cost.
- 30,000+ MAU in the first 6 months; used analytics to separate bot vs. real-user traffic and prioritize features for real users.
- Shipped DeFi products: DEX, launchpad, analytics, trading tools. Portfolio: hamsterbox.xyz.

Senior Product Owner and Product Manager

Mar 2022 - Apr 2024

Kyros Ventures / Ancient8

(Full-time Remote: Mar - Sep 2022, then Part-time Remote until Apr 2024)

- Built the product team from scratch, working directly with the CEO and Co-founder, and led product strategy and delivery for Dojo Token, Dojo NFT, Ancient8 User Identity, and Space3.gg across a fast-growing team with many external ecosystem dependencies.
- Shipped multi-chain wallet login, social auth, and SDK integrations - aligned roadmaps with partner ecosystems and internal engineering.
- Built product documentation, planning processes, agile release workflows, and prioritization frameworks for a team scaling from a handful to dozens.
- Mentored junior BAs, POs, and team leads on discovery, prioritization, and outcome-based delivery.

SKILLS

Business Analyst

Discovery & requirements
Process mapping
Rapid prototyping
Wireframing & UX analysis
UAT & release support

Product Management

Strategy & roadmap
Backlog prioritization
Release planning
Metrics & experimentation
User & competitor research
Product lifecycle management

Building

Vibe coding
Building product teams
Shipping apps from 0 to 1

Tools

AI: Claude Code CLI, Claude Chat, Gemini, GPT, Grok
Product: Jira, Confluence, Notion, Trello, GitHub Projects
Design & Diagram: Figma, Pencil.dev, Draw.io, Lucidchart, Excalidraw
Analytics: Google Analytics

Senior Business Analyst

VNPAY

- Led BA work on digital banking and payment initiatives in a multi-stakeholder environm (ABBANK, IVB, SCB, Kienlongbank, Vietcombank, HDBank, Eximbank), VNPAY produc

WORK EXPERIENCE

Founder

Feb 2025 - Present

TestGenAI - AI test case generator

- Built and run an AI product that converts business requirements into structured test cases - positioned AI as an accelerator for QA.
- 3,500+ users, 140+ paid orders, ~87M VND cumulative revenue, ~2.5% free-to-paid conversion; profitable on lean infra (~\$80/month total).
- Owned strategy, UX, pricing, and go-to-market; integrated Gemini and Claude APIs to generate test cases - helped QA teams cut test writing time by ~80%.

Founder & CEO

Aug 2019 - Feb 2022, Jan 2024 - Present

Enrich English / PhiEnglish - Online English Education

- Built and operated a 1-on-1 online English center; Enrich serves 50+ students/month.
- Designed LMS, pricing, materials, and CRM from scratch.
- Managed up to 20 teachers and 2 staff with suitable margins.
- Currently developing EnrichEnglish.App - an English-learning app for the Enrich community and public users (free + paid tiers), with vocabulary practice, dictionary, AI study assistant, and Listening/Speaking/Reading/Writing/Grammar features; integrates multiple LLM providers (Gemini, GPT, Claude) via API/proxy.

Freelance App Builder / Product Manager

Aug 2017 - Present

Freelance

- Worked across web and mobile projects in BA, QC, and front-end roles.
- Currently build and ship apps as a freelancer, including Hotdeal Media, CampingHub, GlampingHub, and The Black Artichoke.
- Partnered with product, UX, and engineering on requirements, releases, and delivery quality.

Blogger & Community Builder

2017 - Present

- Publish articles at hoangphan.blog about product, BA, and UX.
- Run a 2,000+ member Business Analyst Vietnam community on Telegram and Zalo.
- Built AI4BA and helped 200+ learners optimize their work with AI, improving productivity by 2-3x.

EDUCATION

Software Engineering

Ho Chi Minh City University of Information Technology (UIT), Vietnam

2014 - 2019

English level: B2

PRIZES

1st Prize - Solana Vietnam Coding Camp 2023 (\$10,000)

1st Prize - Vietnam Klaytnovators Hackathon (\$5,000)

UI/UX Track Winner - GMVN Hackathon (\$3,000)

2nd Prize - GMVietnam2023 Hackerspace (\$2,500)
